

### Non-Native Speakers of English Editing Certificate for World Journal of Stem Cells

I, Prof.Dr.Vranckx Jan, the corresponding author of the paper number 64768, titled " The anti-fibrotic effect of adipose-derived stem cells (ADSCs) on fibrotic scars after radiotherapy ", declare that the authors of the present manuscript are non-native English speakers but our manuscript has been reviewed for clarity by a colleague whose native language is English.

A handwritten signature in blue ink, which appears to read "Jan Vranckx", written over a horizontal line.
