

17/01/2023

To whom it may concern:

The purpose of this letter is to verify that Zibo Yimore Translation CO.LTD provided the English proofreading services for the following thesis : **Bone marrow mesenchymal stem cell-derived exosomal miRNAs target PI3K/Akt signaling pathway to potentially promote tendon-bone healing**

Author: **Fangqi Li, Wenbo Chen, Zhiwen Luo, Yisheng Chen, Yaying Sun, Xiaoping Su, Junming Sun, and Shiyi Chen**

The basic language editing including the correction of grammar, punctuation and syntax was performed normatively with our best efforts. And the edited document was returned to the writer on 17/01/2023. We are unaware of any changes or additions made to the manuscript after that time. We have kept the specimen of the received original file in case of any legal dispute.

Sincerely,

Henry Graff
