**Title: Ergonomics of gastrointestinal endoscopies: musculoskeletal injury among endoscopy physicians, nurses, and technicians**

This manuscript has been **proof-read by a native English speaker.**

This article was read and studied carefully by a fellow colleague at the Aga Khan University. This colleague is a U.S. born and is native to the English language. The colleague has ensured that there are no grammatical errors in this manuscript.

I am available for all further correspondence and queries.

Thank you.
