## **Certificate Service Confirmation**

Dear Editor,

I declare that I have provided, as a native speaker, a complete editing service for the initiated manuscript "Acute left-sided malignant colonic obstruction: is there a role for endoscopic stenting?" by Russo S. et al under consideration for publication in your journal. In my opinion, the English style is correct and requires no additional language editing.

I have helped with previous papers prepared by Dr Conigliaro and her team that have been accepted for publication in Medical Journals with high impact factors, including Endoscopy, and the American Journal of Gastroenterology.

Yours sincerely,

*Melissa J. Marshall*
