

## Editor Comments

**Job No.:** 7034073

**Job Title:** Clinical significance of prophylactic lateral ...

Your latest manuscript has been comprehensively edited. Please check the edited text carefully.

### Guidelines for Authors

Target publication: *Surgery Today*

Submission type: Clinical Original Article

Available at: <http://www.springer.com/medicine/surgery/journal/595>

Your manuscript conforms to the guidelines unless stated in the text in gray highlight. The main points you need to address before submission are summarized here.

- A Certification Form, available from the ScholarOne Manuscripts site, must be submitted to the journal's editorial office via ScholarOne Manuscripts. A scanned file (PDF, TIFF, or JPEG) of the original signed Certification Form should be uploaded at the same time you submit your manuscript via ScholarOne Manuscripts.
- Clinical Trials Registration: The journal requires all clinical trials that prospectively assign human subjects to medical interventions, comparison groups, or control groups for the purpose of examining the potential health effects of such interventions, to be registered in one of several free, publicly accessible, non-profit electronically searchable databases such as the one administered by the National Library of Medicine (NLM), which is located at <http://www.clinicaltrials.gov>.
- Submitted manuscripts must include the unique registration number in the abstract as evidence of registration. For details regarding the required minimal registration data set, please go to the International Committee of Medical Journal Editors (ICMJE) site at [http://www.icmje.org/#clin\\_trials](http://www.icmje.org/#clin_trials).
- The journal accepts registration in the following registries:
  - <http://www.clinicaltrials.gov/> (Clinical Trials)
  - <http://actr.org.au> (Australian Clinical Trials Registry)
  - <http://isrctn.org> (ISRCTN Register)
  - <http://www.trialregister.nl/trialreg/index.asp> (Netherlands Trial Register)

- <http://www.umin.ac.jp/ctr> (UMIN Clinical Trials Registry)
- Potential Conflict of Interest: Indicate whether or not you have a financial relationship with the organization that sponsored the research. They should also state that they have full control of all primary data and that they agree to allow the journal to review their data if requested. Therefore, the manuscript must be accompanied by the “Conflict of Interest Disclosure Statement”. This form can be obtained from <http://www.springer.com/journal/595/>
- Insert the “Conflict of Interest Statement” before the reference list, as shown in the example in the manuscript.

If you have any questions about the manuscript, or if you would like me to check any final changes you make to the wording, please let me know. However, if you will proceed directly to submission, I wish you well with this.

We look forward to working with you again.
