

Non-Native Speakers of English Editing Certificate

Title: Two surgical pathways for isolated hip fractures. A comparative study.

Manuscript Number: 81785

IRB Approval Number: MWMC - 2020-138

The manuscript was revised for recommended minor English language corrections.

The senior author of the manuscript (Dr. Russell Weisz) as well as three other co-authors are native English language speakers.

An additional language revision was done by the native English language speaker and text corrector who is an experienced medical text editor.
