

STATEMENT TO THE LANGUAGE EDITING BY A NATIVE SPEAKER

Manuscript submitted to the World Journal of Orthopedic:

Deepening trochleoplasty combined with balanced MPFL reconstruction for an adequate graft tensioning

Authors:

Lars V von Engelhardt, Pia Weskamp, Matthias Lahner, Gunter Spahn, Joerg Jerosch

The authors declare that they have carefully polished and revised the language content of the manuscript. The manuscript is written by researchers who have extensive experience with English research writing and journal reviewing. Finally, the manuscript has been reviewed for grammatical clarity, language editing and appropriate vocabulary by an English native speaker, who has extensive experience with medical research writing.
