

Native English Speakers Statement

29th September, 2022

Dear Sir,

We certify that Dr. Ahmed Elghoudi and Professor Hassib Narchi are British citizens, fully trained in the United Kingdom, with a long career as consultant paediatricians in the British National Health Service. Both are fellows of the Royal College of Paediatrics and Child Health in the UK and have published extensively in peer-reviewed medical journals including several sister journals published by Bashideng.

For all these reasons, they never had to use it before, nor do they now need an English Editing Certificate.

Yours sincerely,

A. Elghoudi
