

**Non native Speaker of English Editing Certificate for  
World Journal of Critical Care**

I, Marie Carmen Valenza, the corresponding author of the paper titled “Reduced exercise capacity and self-perceived health status in high-risk patients undergoing lung resection”, declare that the majority of authors of the present manuscript are non-native English speaker but our manuscript has been reviewed for clarify by the author Lawrence Cahalin whose native language is English.

Marie Carmen Valenza, PhD,

Physiotherapy department, Faculty of Health Sciences,

University of Granada, Spain.
