

Review Certificate

No.:2024011627

To whom it may concern:

This memo certifies that one of our clients has contracted our academic editing service for the following manuscript title:

Causal Relationship Between Feelings and Cognitive Decline: An Univariable and Multivariable Mendelian Randomization Study

The English review was conducted with a two-stage process. One junior editor first reviewed the file, and a senior editor conducted a final and more thorough review. All of our editors are native English-speaking professionals.

Documents receiving this certification have achieved Grade A status and are eligible for priority publishing without the need for language polishing.

We would like to emphasize that our service targets grammar and language edition, but not rewrite the documents from scratch. If you are dissatisfied with specific revisions, please contact the email iepingmed@163.com or website <http://www.aiyiping.com>
